25X1A6a This source material has been microfilmed by [REDACTED] and will be forwarded  
25X1A6a with the [REDACTED] report when it is published. ORR will probably have to request the microfilm on loan from G-2, though I may be able to have another copy made over here. Since it took me 1 1/2 days to reproduce the enclosed report, I am somewhat leery of embarking on another reproduction job, unless I can find someone else to do it. 25X1A8a

D/C  
25X1A6a 3. If after analyzing this report, [REDACTED] has further requirements, I suggest that they be submitted to Department of the Army for forwarding to EUCOM, [REDACTED] with a copy to me. I would then turn the copy over to [REDACTED] so that they could begin processing it without having to wait for the requirement to reach them through normal channels.

4. Immediately after receipt of Reference (b) authorizing me to hire n  
[redacted] to work on ORR requirements, I initiated the necessary arrangements.  
[redacted] was most cooperative and offered a safehouse in which [redacted] could  
live and work. [redacted] however, had been offered and had accepted a  
permanent position as head of the Hungarian Division of Radio Free Europe  
and has now gone to Munich to take over the position. Our plans for him  
have therefore been shattered. Before they released him, however, [redacted]  
stipulated, and [redacted] agreed, to make himself available should further  
requirements arise. ORR's requirements can be processed but only during  
source's free time.
